Manufacturer: Telcoline

Referention number: TEL-SKD-16F

Information:

The distribution box allows the installation of weld trays, as well as the proper arrangement and organization of fiber optic cables and fibers. This version has space for 2 splitters (1x16).

Full product description

Metal distribution box 16F

The distribution box allows the installation of weld trays (12/24), as well as the proper arrangement and organization of fiber optic wires and fibers. Ip65 protection protects the connection from the influence of weather conditions.

Features:

- 6 holes for bus/distribution cables,
- Screw-on tray for 12 welds (24 with double arrangement),
- Space for two PLC splitter cartridges (1x16) or SC/SC, SC/APC, SC/UPC Simplex or LC Duplex adapters,
- Bracket to plug in a temporarily unused connector,
- Column for safe arrangement of 24 client cables (3mm in diameter),
- Powder-coated grey (electrostatic spray),
- IP65 rating,
- Mounting method: on a pole or on a flat surface.

Product specification

Technical parameters	
Weld tray	1 pc. (for 12/24 welds)
Number of holes	6
Installation	Flat surfaces Telecommunication poles (includes bracket, clamps, screws)
IP protection level	IP65

General parameters	
Dimensions [mm]	350 x 335 x 100
Weight [kg]	4.3
Working conditions	Ambient temperature: -25 to 55 [°C]

The contents of the set

- Distribution box,
- Weld tray 12/24 (1 pcs.),
- Weld casings (12 pcs.),
- Protective tube,
- Plastic clamping bands,
- Metal band (2 pcs.),
- Pole mount bracket,
- Metal bracket bracket (2 pcs.).
