Manufacturer: Telcoline

Referention number: TEL-SKD-24F

### Information:

The distribution box allows the installation of weld trays, as well as the proper arrangement and organization of fiber optic cables and fibers.

### Full product description

### Metal distribution box 24F

**The distribution box allows** the installation of weld trays (12/24), as well as the proper arrangement and organization of fiber optic wires and fibers. Ip65 protection protects the connection from the influence of weather conditions.

### Features:

- 24 modular ports for SC/SC, SC/APC, SC/UPC Simplex or LC Duplex adapters,
- 6 holes for bus/distribution cables,
- Screw-on tray for 12 welds (24 with double arrangement),
- Column for safe arrangement of 12 client cables (3mm in diameter),
- Powder-coated grey (electrostatic spray),
- IP65 rating,
- Mounting method: on a pole or on a flat surface.

### Product specification

Technical parameters	
Weld tray	1 pc. (for 12/24 welds)
Maximum number of adapters	24
Number of holes	6
Installation	Flat surfaces Telecommunication poles (includes bracket, clamps, screws)
IP protection level	IP65

General parameters	
Dimensions [mm]	380 x 345 x 60
Weight [kg]	3
Working conditions	Ambient temperature: -25 to 55 [°C]

**The contents of the set**

- Distribution box,
- Weld tray 12/24,
- Weld casings (12 pcs.),
- Protective tube,
- Insulating dam,
- Plastic clamping bands,
- Metal band (2 pcs.),
- Pole mount bracket,
- Metal bracket bracket (2 pcs.).
