Manufacturer: GetFort

Referention number: IO-19INCH-18U-600600

Full product description

GetFort Hanging Cabinet designed according to the 19" IT cabinet standard. It is used to organize devices and cables, as well as to protect them from unauthorized access or accidental shutdown. The wardrobe has good ventilation with the possibility of expanding by 2 fans. This helps to maintain optimal operating conditions of the equipment, thereby increasing their efficiency and service life.

It is possible to purchase and install shelves that allow you to equip the cabinet with equipment not adapted to the 19" standard.

GetFort cabinets are extremely popular and work great with a variety of systems, including CCTV systems, structural cabling systems, or passive or active network equipment. They can work both in the company and at home.

The cabinets are made of high quality materials.
