Producent: InterOpto

Nr referencyjny: IO-KIT-28EL

### Opis produktu

**Toolkit** is a collection of 28 tools that significantly improve the work of a specialist. This kit includes both tools that are necessary for fiber optic work (power meter, cleaver, dust-free wipes, etc.), but also designed for all kinds of additional work: distance measuring scoop, wrench set, pliers or knife. The finished set is also a time saving due to the fact that we do not lose it to search for tools and self-assembly of such a set. The whole is in a handy suitcase (bag) for easy transport and use.

### This set includes:

- o Cleaver (guillotine)

- o 100ml bottle with alcohol (fiber cleaning)

- Stripper for subscriber cables

- Electrical insulation tape (3 meters)

- Power meter

- Set of allen (hex) wrenches

- Kimwipes Dust-Free Wipes (280 pcs.)

- Set of 8 screwdrivers

- Visual damage locator (1mW power)

- Small blower with air for cleaning

- Shears for cutting steel cable

- Strippers for fiber optic tube removal

- Strippers for removing the coat and fiber coating

- Measuring scoop (3 meters)

- Universal cable insulation slitter (4.5mm-25mm)

- Marker

- Tub Stripper (0-3.2mm)

- Electric sampler

- Adjustable key 6"

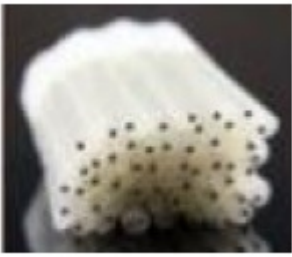

- Scissors for Kevlar

- Knife

- Weld casings 60mm

- Universal pliers

- Cutting side pliers

- Needle pliers

- Hammer

- Saw for cutting

- Transport suitcase
