Manufacturer: Softech Industry Ltd.

Referention number: IO-STR-21

### Information:

Necessary to remove varnish and gel, residues from stripping fiber.

### Full product description

**Sofwipes dust-free wipes** necessary to remove the varnish and gel, the residues from stripping the fiber. Wipes, before precisely cutting the forehead of the fiber, should be soaked with IPA alcohol. After cutting with a guillotine, we do not clean again, we put the fiber in the welder. A single handkerchief measures 210 x 110mm (whole package 116 x 113 x 75mm).

**This is a replacement for Kimwipes wipes**
