link to the product: https://intersell.pl/gb/903-light-cabinet-srs-450-x-120-x-280-sc-duplex.html

Manufacturer: Mantar

Referention number: MT-SRS-28/45/12Dx

Full product description

Fiber optic wall cabinet protects passive components in the fibre network from mechanical damage and third-party access. The cabinet has 2 drum locks and is made of 1mm thick sheet in RAL7035 color (thick structure). In addition, it was equipped with 2 ř21 holes (in the upper and lower parts).
The cabinet has 22 SC Duplex ports (without adapters - they must be purchased additionally), cable organizers and handles used to attach the central element to strengthen the fiber optic cable.
