

SRS 530 x 130 x 300 SC Simplex Fiber Cabinet

link to the product: <https://intersell.pl/gb/906-light-cabinet-srs-530-x-130-x-300-sc-simplex.html>

Manufacturer: Mantar

Referention number: MT-SRS-30/53/13Sx

Full product description

The wall-mounted fiber cabinet protects passive components in the optical m.in from mechanical damage and third-party access, allows them to be installed, and closes cables to the building from the telecom panel or from vertical cables. The cabinet has 2 drum locks (with two different codes or a common one) and is made of 1mm thick sheet in RAL7035 color (thick structure). In addition, the cabinet is equipped with $\varnothing 21$ holes (2 at the top and 2 at the bottom) and a blinded hole $\varnothing 38/50$ (1 at the top and 1 at the bottom).

The part intended for customers (extended, possibility of welding on the tray placed there) is separated from the subscriber part.

The cabinet has 60 SC Simplex ports (without adapters - they must be purchased additionally) and organizers for cables.

SPECIFICATION

Technical parameters	
Material	1mm thick sheet Powder coated Color: RAL7035
Destiny	Wall mountable
General parameters	

Dimensions (width x length x height) [mm]	530 x 130 x 300
